

## Brockton Notes.

By R. F. Weaver

(All communications intended for this department should be addressed to R. F. Weaver, New Brockton, Ala.)

Mr. D. McKinnon, who has been under the weather for a time, was toned up considerably the other day by a prescription from Gov. O'Neal in the form of an appointment as mayor of New Brockton. A very good appointment, Mr. Governor. Another good one was the appointment of Squire Dawkins as J. P., ex officio and Notary Public. Mr. O'Neal's father made the same appointment in Russell County when he was governor.

The consolidated Trading Co. is putting up a safe stable on the lot back of the company's store.

Mr. M. A. McDowell has bought out the mercantile business of Uncle Jesse Moore and will be found at the old stand ready for business.

Hugh Owens has been making some improvements in his market and is prepared to dish you out a peace of tender cow at all times.

The Florida Democrat speaks of the past winter. Huh! If the thing has passed we didn't see it.

Mr. Farmer, have you set out the cabbage, plauted Irish potatoes, English peas, turnips, onion etc. in the garden and planted tomato seed in boxes ready for spring? They are things that will come handy in the spring, as a boll weevil preventative.

I wonder what has become of the big corn crop made last year? The northern farmer shells and sacks up his corn and can then ship it to any part of the world. If our farmers continue the corn raising stunt of last year, they must do the same way if they sell the surplus. To prevent the destruction by the weevils, shell your corn into boxes or barrels and seal a saucer full of carbon bisulphide on top of it, cover with a sack and keep fire away and the fumes of the bisulphide will kill the weevils as the fumes being heavy will sink to the bottom, try it.

Mr. P. J. McRee is spending a few days with his daughter Mrs. B. F. Weaver.

Mr. S. G. Wallace has opened a blacksmith shop over on the west side and is ready to sharpen that plow or fix the old wagon for you, Miss Elsie Dean of Georgiana has been visiting her sister Mrs. J. L. Brock.

Mr. Hugh Brock says all the "hoys" in this neck of the woods paid that poll tax and will be ready to vote on whatever the local option hear puts out.

Miss Annie Bell Coley who had been teaching at Arwood school has returned to her home in Newton.

A very sad death occurred when Mrs. Lee died last Friday at her home 3 miles north of town. She had been a sufferer for several years. She leaves a wife and several children to mourn for the loss of a wife and mother.

If any one wishes a good contest in fish stories just see Mr. Dave Harper.

Mr. R. C. Adams is preparing to build a house on a lot east of the bank.

Rev. J. F. Daily the new pastor of the Methodist church here delivered an interesting sermon on congregations Sunday.

He is one of the men who never grows old.

McDowell has returned from a trip to his old home in Pike County.

The following composition on "The Bear" was written by a school boy:

"The bear is a wild animal that you don't find in the country except when a man who can't talk plain brings one along and lets us see him dance if we will pay him a nickel. The bear has to be muzzled and held by a rope so he won't stop dancing and eat up somebody.

The bear is a robber and lives

## SCROFULA

Scrofula disfigures and causes life-long misery. Children become strong and lively when given small doses of

**Scott's Emulsion** every day. The starved body is fed; the swollen glands healed, and the tainted blood vitalized. Good food, fresh air and Scott's Emulsion conquer scrofula and many other blood diseases.

SCOTT & BOWNE, 409 Pearl St., N. Y.

ly robin see the he will eat folk and any other wild animals he can find.

I have read many stories of bears. There was a Indian boy named Hearather who killed a big bear when he was a little fellow.

He said "Bear you are a coward and no brave as you pretended." You go sneakin' prowlin' 'bout the mountains and when you are caught you whimper like an old squaw."

There are many kinds of bears, there is the grizzly bear that lives in the rocky mountains, and the polar bear that eats seals and arctic explorers. Then there is the bear on wall street that fight bulls and the local option bear that eats blind tigers.

The bear is a dangerous animal that is hunted by ex-presidents and ex-governors for their skins. Mrs. J. B. Hatfield is visiting her old home here from Montgomery.

Notice Of Appointment Of Executor.

State of Alabama, Coffee County. In Probate Court of said County at Elba, Ala.

In the matter of the estate of Philip W. Killingsworth, deceased:

Letters testamentary under the last will and testament of said decedent having been granted to the undersigned on the 25th day of January, 1911, by the Hon. S. N. Rowe, Probate Judge of said County, in said County, in said State, notice is hereby given to all persons having claims said estate present the same within the time allowed by law, or the same will be barred.

This January 25th, 1911.

### CORPSE PUT OUT LIGHT.

Body of Dad Man Threw Town into Darkness.

Holland Kichlein, a wire chief employed by the Edison Electric Light Company, of Brooklyn, was sent out before daybreak Tuesday to locate a leakage of electricity at Red Hook, a suburban district. He had been gone about an hour when someone telephoned that all the lights in Red Hook had suddenly gone out.

Two men sent to seek out the new trouble, found Kichlein's body lying rigid across the wires 40 feet above the street. He had apparently fallen from his perch on a pole and his body caught in a tangle of wires and cables had short-circuited all the current in the little town. He had been instantly killed.

### BATTLE COMING IN SENATE THIS WEEK.

Three Measures Of Statewide Importance at Up.

Montgomery Advertiser.

There are three bills of statewide importance that will confront the Senate during the coming week, or during the early part of the week following. These are the Parks local option bill, Mr. Stoen's Appellate Court bill, and Mr. Justice's bill to raise the appropriation for common schools of the State from \$350,000 to \$500,000.

Because the redemption of pledges made by the Democratic party depends upon its passage through the Senate, interests centers perhaps in the passage of the Parks local option bill. This bill must go first through the hand of the Temperance Committee composed of Senators Moody, Spragins, Norman, Atkins, Crumpton, Stevens, Miller, Rogers and Justice. Local optionists claim six of the nine members of the committee. Prohibitionists claim enough to defeat the bill.

Senator Moody, chairman of the Temperance Committee, introduced three weeks ago a dispensary bill, State-wide in its scope as to local option and it is understood that a hard fight will be made by the prohibitionists to substitute this measure for the Parks bill. On this attempted substitution however, local optionists claim that they have seventeen men absolutely pledged to defeat the attempt.

After the defeat of the Moody substitute, if it is to be in reality defeated, the real fight will begin. Here the local optionists again claim that they have seventeen men absolutely pledged, with at least two more probabilities. It is claimed that the fight in the Senate waged by the local optionists will be even easier to win than was the struggle in the House on last Thursday.

When Senator Justice's educational appropriation bill came up in the Senate Friday morning, it was thought that it would be passed without protest, Senator Allen, however, advocating the best possible chance for the poor boy to get a common school education, offered an amendment to the bill raising the amount of the appropriation from \$500,000 to \$600,000. To this amendment and to the bill, it was objected that moneys of the State were being appropriated in a reckless manner, and the Senate was reminded that the committee appointed to investigate the condition of the treasury had not yet reported. It was therefore moved and carried to re-commit the bill to the Committee on Finance and taxation.

Senator Moore's bill to assess taxable property in Alabama on a basis of 60 per cent. was also passed by the Senate. With the exception of these four bills, measures considered by the Senate were generally of a local or minor nature. On Friday, a resolution offered by Senator Spragins for the Senate to remain in session until the calendar had been cleared of local bills, was adopted under suspension of the rules, and a great amount of local legislation was passed.

All Skin Troubles Are overborne by using Dr. Bell's Antiseptic Salve. It is as pleasant to use as pure cream and it is guaranteed to give satisfaction. 25c a box.

### BOUND OVER.

Cletus Wilson, Charged With Assault to Murder.

Saturday Justice Owen tried Cletus Wilson, who is charged with assault with intent to murder Milton F. Yancey, in the lower part of the County near Holy's Mill in January. Wilson was placed under bond in sum of three hundred dollars to await action of the grand jury, and made bond.

### Baldwin's Strawberry Crop.

BAX MINETTE, ALA., Feb. 9.—The local land company is making preparations for the strawberry harvest, which is close at hand. The crop this spring promises to be a large one and the land company, having nearly seventy acres in berries, will require a number of pickers.

The plants were set out last spring, and the fall crop not picked. This spring, thousands of crates are expected and markets are fast being arranged for the crop. The field owned by the local land company is the largest berry patch in the county and interest is centered on the prices to be secured and the yield per acre.

Many other farmers are planting large patches of strawberries this year and this locality promises to be a great center for luscious berries in a few years. Hampton D. Ewing, of New York, owner of the Bay Menette Land Company, is down looking into the situation and pronounces the outlook excellent.

Do you know that crop can be prevented? Give Chamberlain's Cough Remedy as soon as the child becomes hoarse or even after the cough appears and it will prevent the attack. It is also a certain cure for croup and has never been known to fail. Sold by All Druggists.

### Negroes Ordered To Leave

BAXTERVILLE, MISS., Feb. 9.—The posting of placards reading, "All Negroes Get Out of This County," and reports of repeated sortings by whitecappers and firing through the windows of negro cabins have started an investigation by State and Federal authorities. A. L. Yates, an attorney of Jackson, who will do the investigating arrived yesterday.

An organized movement to rid the county of its colored population is said to have been formed because of recent attacks on white woman.

How To Grow Corn On Upland.

A pamphlet giving full instructions by W. T. Langley, Sr., winner of prizes in 1909 and 1910 making 134 1-4 and 115 1-4 bushels per acre. And 411 bushels on four acres. Price 25c. Send P. O. order or stamps to W. T. Langley, Sr., Camp Hill, Ala.

### Fined Four Dollars.

Saturday Justice Bryan tried Floyd McGowan on a charge of purloining the charter of the "Household of Ruth," a colored benevolent association or fraternity, and assessed a fine of four dollars and costs. Floyd took an appeal and his case goes to County Court.

Sight to Valuable Sutherland's Eagle Eye Salve Is the best eye remedy ever offered the public. It is a snow white ointment painless, harmless and absolutely guaranteed to cure. At all dealers. 25c a tube.

### THE TURN-OUT LAW.

Will Be Opposed by Portion of Farmers.

There is now appearing once a week in The Clipper a notice of a proposed law to provide for the turn-out of stock from Dec. 1st to March 1st each winter, and considerable interest has been manifested in the passage of such a law; a bill along the line stated will be sent to Representative Pittman and Senator Folmar for introduction after the notice has run today. It is said that the representative and senator want to do what most of the people want on the proposed change in the stock law, but do not know what that is.

It is said that there will be strong representations made on both sides of the matter to the representative and senator. For the change and the turn-out it is said that as a rule practically all the crops are gathered before December 1st and practically nothing is planted before March 1st; that in the woods and branches there is a great deal of cane and mace and in the fields there is a great amount of fine food for hogs and cows that would be lost if there were no turn-out; that in most sections of the county there is already a turn-out by agreement, and that the people who make the agreement can be and sometimes are put to a great deal of trouble by one man or a few men who are contrary; that oats and late cotton and ground peas and orchards can be fenced to keep stock from hurting them in the three months turn-out time; other arguments are made for the turn-out.

Against the turn-out arguments are also made. Among them are the following; with late fertilizing much cotton in an average year will remain unpicker on December 1st; cattle and hogs that run at large three months of the year will want to do so the balance of the year and will be mischievous; hog cholera, which has about played out, will be kept spread over the county under turn-out conditions; the cattletick eradication plan that is in effect in many sections can never be put in here, if cattle run out; cows will eat fruit trees, late ground peas and oats will be at the mercy of stock unless they are fenced; some people would turn out a month ahead and take up a month or two late; there would be law-suits and trouble galore with turn-out; some folks would wait for turn-out to fatten their hogs and cows, &c.

It can be seen that each side has good grounds for argument and as the bill will likely be introduced today there will be letters to the Senator and Representative, and perhaps petitions also, as The Clipper is informed that both sides will put out petitions.

President Taft is seeking to break down the tariff wall between Canada and this country so the agricultural products of that country can find a market here, and the manufactured goods of the States can go into Canada free. Under this plan the manufacturers are given protection both in buying and selling while the American farmers will have to buy in a high protection market and sell in competition with a free trade country. The new arrangement will not effect the south, since we have no grain to sell, but we expect to hear a howl from the north and west.

Foley Kidney Pills are a reliable remedy for backache, rheumatism and urinary irregularities. They are tonic in action, quick in results and afford a prompt relief from all kidney disorders. City Drug Co.

Atlanta, Feb. 11.—What purports to be a plot to distribute boll weevils throughout the cotton raising districts of Georgia and South Carolina was exposed today when Governor-elect Hoke Smith gave out for publication a letter received by him telling of the details of the proposed movement.

According to the letter, which was assigned, two men, one from Texas and the other believed to be from Chicago, have in their possession about 100,000 live insects which it is their intention to distribute. The writer declared that he knew one of the men personally, and had promised to conceal their names, but thought it his duty to do all in his power to frustrate their scheme, and therefore sent the fact that he knew them to Mr. Smith.

The matter is being investigated by Commissioner of Agriculture Hudson and State Entomologist Lee Worsham.

Sad Death.

John Hall Killed by Falling From Wagon.

Saturday afternoon Mr. John Hall, a well known citizen of West Coffee, was killed on his way home from Brantley with a load of guano. Just how the accident occurred is not known, but it is believed that Mr. Hall fell from the wagon and his head was dragged upon the ground and run over by the wheel of the heavily loaded wagon. No one was with him at the time, and the finding of his lifeless body was the first news of the occurrence.

Mr. Hall had many friends. He was about 45 years old. He leaves a loving family to mourn his untimely end. To them our sympathy is extended.

On Monday evening of Feb. 6th, at 9:00 o'clock, little Green Grantham, the 12-year old son of Mrs. Mary Grantham, died at his home near Mt. Gilliard church, and was buried in the cemetery of that church Tuesday evening at 4 o'clock. Rev. J. D. Fuller conducted the funeral services.

The deceased leaves a mother, two brothers and a host of relatives and friends who mourn his death. He was a devoted Christian child, and was loving and kind to all who knew him. I hope and trust that we will all meet him again in a brighter and happier land, where there will be no more parting and no more pain.

Our sympathy goes out to his mother and brothers, and to Mr. and Mrs. Blidsworth, where little Green has made his home for the past two years. They loved him well. A Friend.
